

Finch Properties

CURRICULUM VITAE

York von Pannwitz

Dipl.-Kaufmann

yvpannwitz@finch-properties.de

Finch Properties

Asset Management GmbH & Co. KG

Niederlassung Frankfurt

Grüneburgweg 6 | 60322 Frankfurt a. M.

The studied B.B.A. launched his career in 1996 in Frankfurt/Main at Vivico Real Estate and gathered initial experience as Administrator in Portfolio Management. He was soon to take on the responsibility as Project, Department and Division Director, before he took over the Berlin branch of Vivico in late 2003, which attained a leading market position under his management.

In early 2006, von Pannwitz joined the Management Board of Allianz Real Estate Germany in Stuttgart. He gave the company a new strategic orientation in asset management and conducted the reorganisation, e.g. through the sale of Property Management division to HOCHTIEF and the sale of Centre Management to ECE.

During that time, sales transactions in a volume of EUR 3 billion were successfully implemented for Allianz investors. While he filled the position of Chief Asset Manager, the occupancy rate of around 300 commercial properties with an investment volume of about EUR 5 million increased substantially to above 96%.

In late 2010, von Pannwitz left the world of corporate groups and founded Greenasix Real Estate in Frankfurt/Main. After many years of cooperation, his company was merged in mid-2014 with the newly founded Finch Properties Asset Management GmbH & Co. KG, which he leads today as Managing Director and Partner with the operative focus on Asset Management.

Von Pannwitz, who was born in South Africa, is married and father of three children.
